

Correcting Funding Sources for Direct Ship Vaccines in CHIRP

Direct ship vaccines, Varivax and ProQuad, have to be assigned different funding codes on the CDC level for order approval. The code will either be VFC or State.

When the shipment upload happens, the funding codes come over with what was assigned at the time of the order. This cannot be changed on the Order Receive screen.

The direct ship vaccine will be added to the inventory as either VFC or State but this does need to be changed for proper decrementing.
